Assembled in the U.S.A. from Venture Lighting

Twinsburg, Ohio (August 28, 2018) - Venture Lighting has started earlier this year to assemble its LED luminaires in the U.S.A. Currently, Venture Lighting is assembling five different LED product families: Modern highbays, Defender wallpacks, Low watt Environ area lighting, VFlood area lighting, and Bollards. Venture Lighting has always strived to exceed customer expectations, Venture believes that assembling luminaires in the USA will allow Venture to provide customers with more options and faster delivery times.

The results are:

- Faster delivery time
- American quality and know-how
- More factory-installed options
- Made-to-order specifications
- Building for a better, brighter future

A short video of the production of Venture Lighting's Modern LED Highbay at our Glenwillow, Ohio facility is available at Venture's Channel: <https://www.youtube.com/user/Ven7531>
Direct link to video is at: <https://youtu.be/NEAHZaLREYg>
